### **Frontend Web Development Enthusiast | Bootcamp Graduate | Eager to Apply Skills in a Dynamic Team**

Fuelled by a passion for creating engaging and user-friendly interfaces, I recently completed a comprehensive frontend web development bootcamp, equipping me with a solid foundation in HTML, CSS, and JavaScript. I am excited to embark on a career in frontend development, where I can combine my technical skills with my creative problem-solving abilities to deliver exceptional user experiences. I am proficient in utilizing HTML and CSS to craft responsive and visually appealing web pages, and I am adept at employing JavaScript to implement interactive elements and enhance user engagement. I am also familiar with popular frameworks such as React and Angular, and I am eager to expand my knowledge in these areas.

My background in teaching has instilled in me strong communication and collaboration skills, enabling me to effectively work with designers, backend developers, and project managers to achieve common goals. I am a quick learner and a self-motivated individual, always seeking opportunities to expand my skillset and stay abreast of the latest trends in frontend development. I am actively seeking an entry-level frontend web development position where I can contribute my skills and enthusiasm to a team of passionate developers. I am confident in my ability to learn quickly, adapt to new technologies, and deliver high-quality work that meets the demands of a fast-paced environment.

### **Technical Skills**

JavaScript ES6+, CSS3, HTML5, GitHub, React, Wordpress, SQL, NoSQL, MySQL, MongoDB, Express, Node, Handlebars, Query, Bootstrap

### **Projects**

#### **Laura Coster | Designed on WordPress | [AskYourDietitian.com](#)**

- Summary: Promotional site for local dietitian.
- Role: Sole author.
- Tools: WordPress, Elementor, HTML, CSS, JavaScript.

#### **Delicious Recipe Generator | [github.com/nonebula/delicious-recipe-generator](https://github.com/nonebula/delicious-recipe-generator) | [nonebula.github.io/delicious-recipe-generator](https://nonebula.github.io/delicious-recipe-generator)**

- Summary: Recipe generator app based on user input with nutritional information and save functions.
- Role: Frontend Designer, Project Manager.
- Tools: HTML, CSS, Javascript, API, Bootstrap, Font Awesome.

#### **Guardian Street Mapper | [github.com/nonebula/GuardianStreetMapper](https://github.com/nonebula/GuardianStreetMapper) | [nonebula.github.io/GuardianStreetMapper](https://nonebula.github.io/GuardianStreetMapper)**

- Summary: Website aimed at logging phone and property theft to inform people of hotspots.
- Role: Sole author.
- Tools: HTML, CSS, Javascript, API, Bootstrap, Font Awesome.

More projects Listed at: <https://github.com/nonebula>

### **Other Professional Experience**

- Teacher of English as a Foreign Language: Pathum Thani/Lampang, Thailand — 2014-2016

### **Key Achievements**

Throughout my teaching career spanning from 2016 to 2023, I have consistently demonstrated adaptability, innovation, and a commitment to enhancing student outcomes. I tailored curriculum to align with educational goals, collaborated with key stakeholders to raise pupil achievement, and utilized data-informed teaching and assessment for effective intervention planning. Spearheading the development of a comprehensive Computing curriculum, I integrated technology tools like Purple Mash, provided training and support to colleagues, and actively managed resource allocation. My dedication to fostering a growth mindset and maintaining high teaching standards led to raising literacy and numeracy levels, while I also established early reader intervention programs. In addition, I coordinated school camps, managed resources, and delivered team training, contributing to the overall success and growth of my educational career.
